

Driving Market Value

Used Car Strategic Insights & Valuation Report

PORTFOLIO PRESENTATION: STRATEGIC OPERATIONS

| Market Opportunity Landscape

 Strategic team session

Mainstream Mobility Shift

- ✓ Market volume expected to reach **9.5M units** by 2030.
- ✓ Increasing consumer preference for **value-based luxury**.
- ✓ Organized retail share growing to **30%+**.
- ✓ Shift towards SUV and crossover segments.

| Rigor: The Data Integrity Audit

Audit Process

Screened 10,000+ records for logical consistency, future-dated manufacturing, and impossible price metrics.

Critical Errors

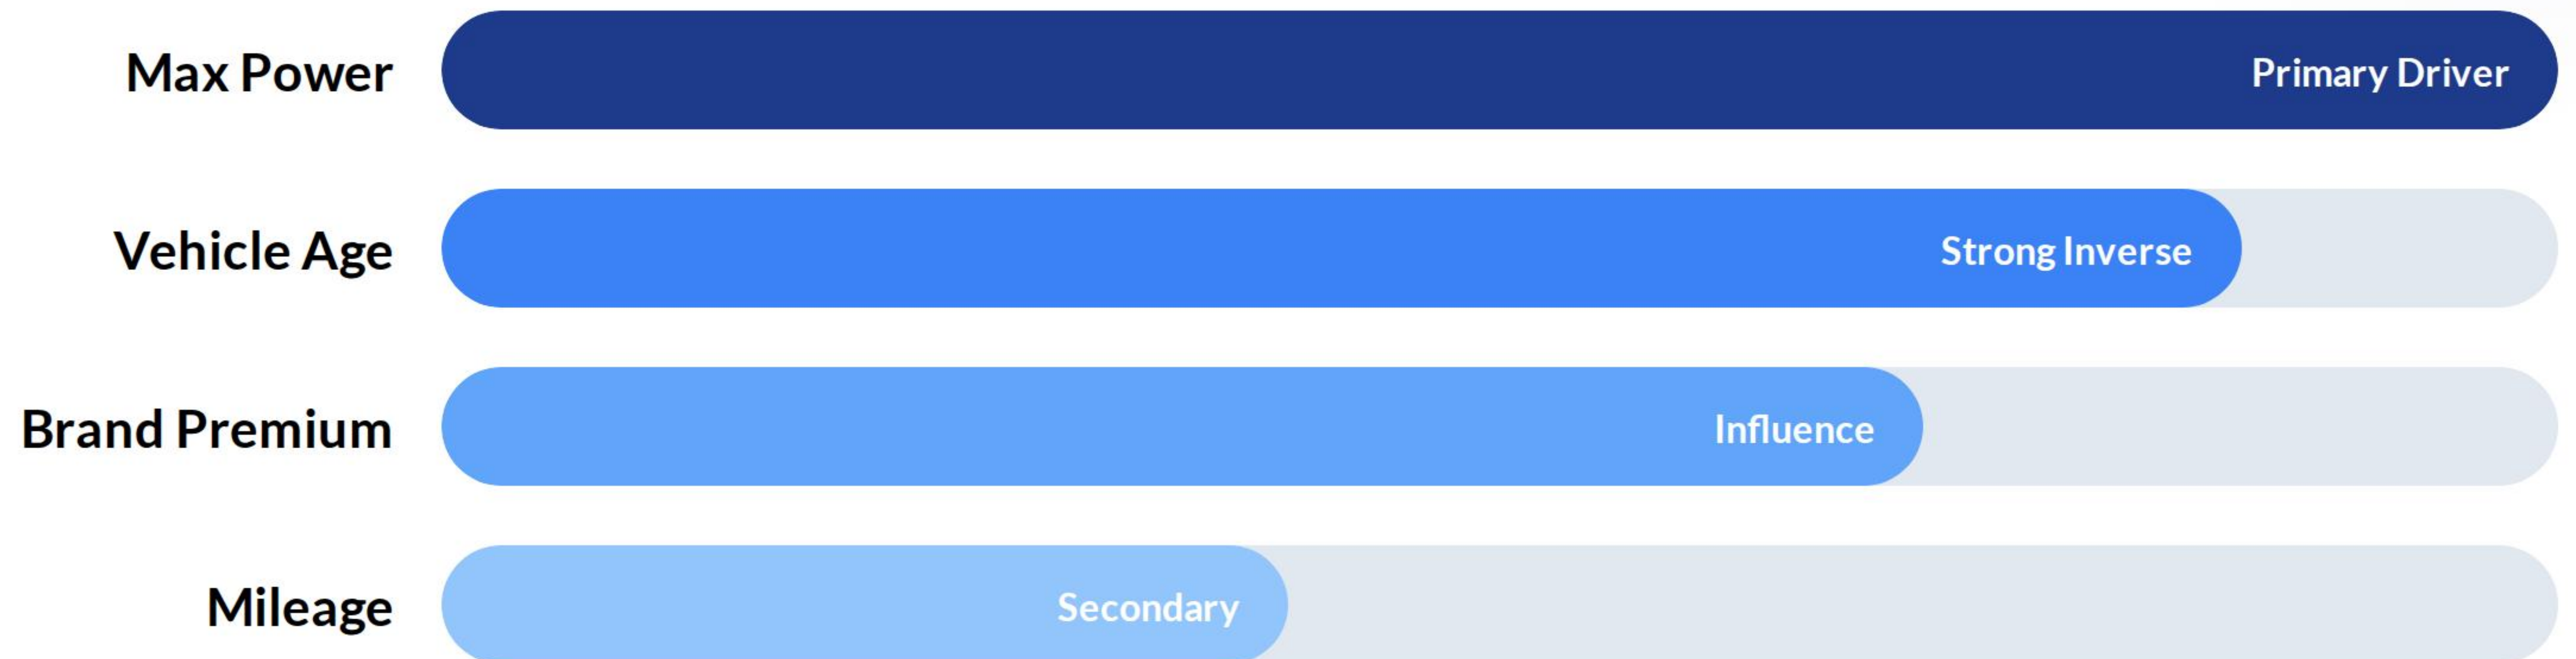

Identified **11% data noise** including negative mileage and invalid fuel categorization (typos).

Correction

Implemented median-by-age imputation and brand mapping to ensure high-fidelity insights.

| Valuation: Top Price Drivers

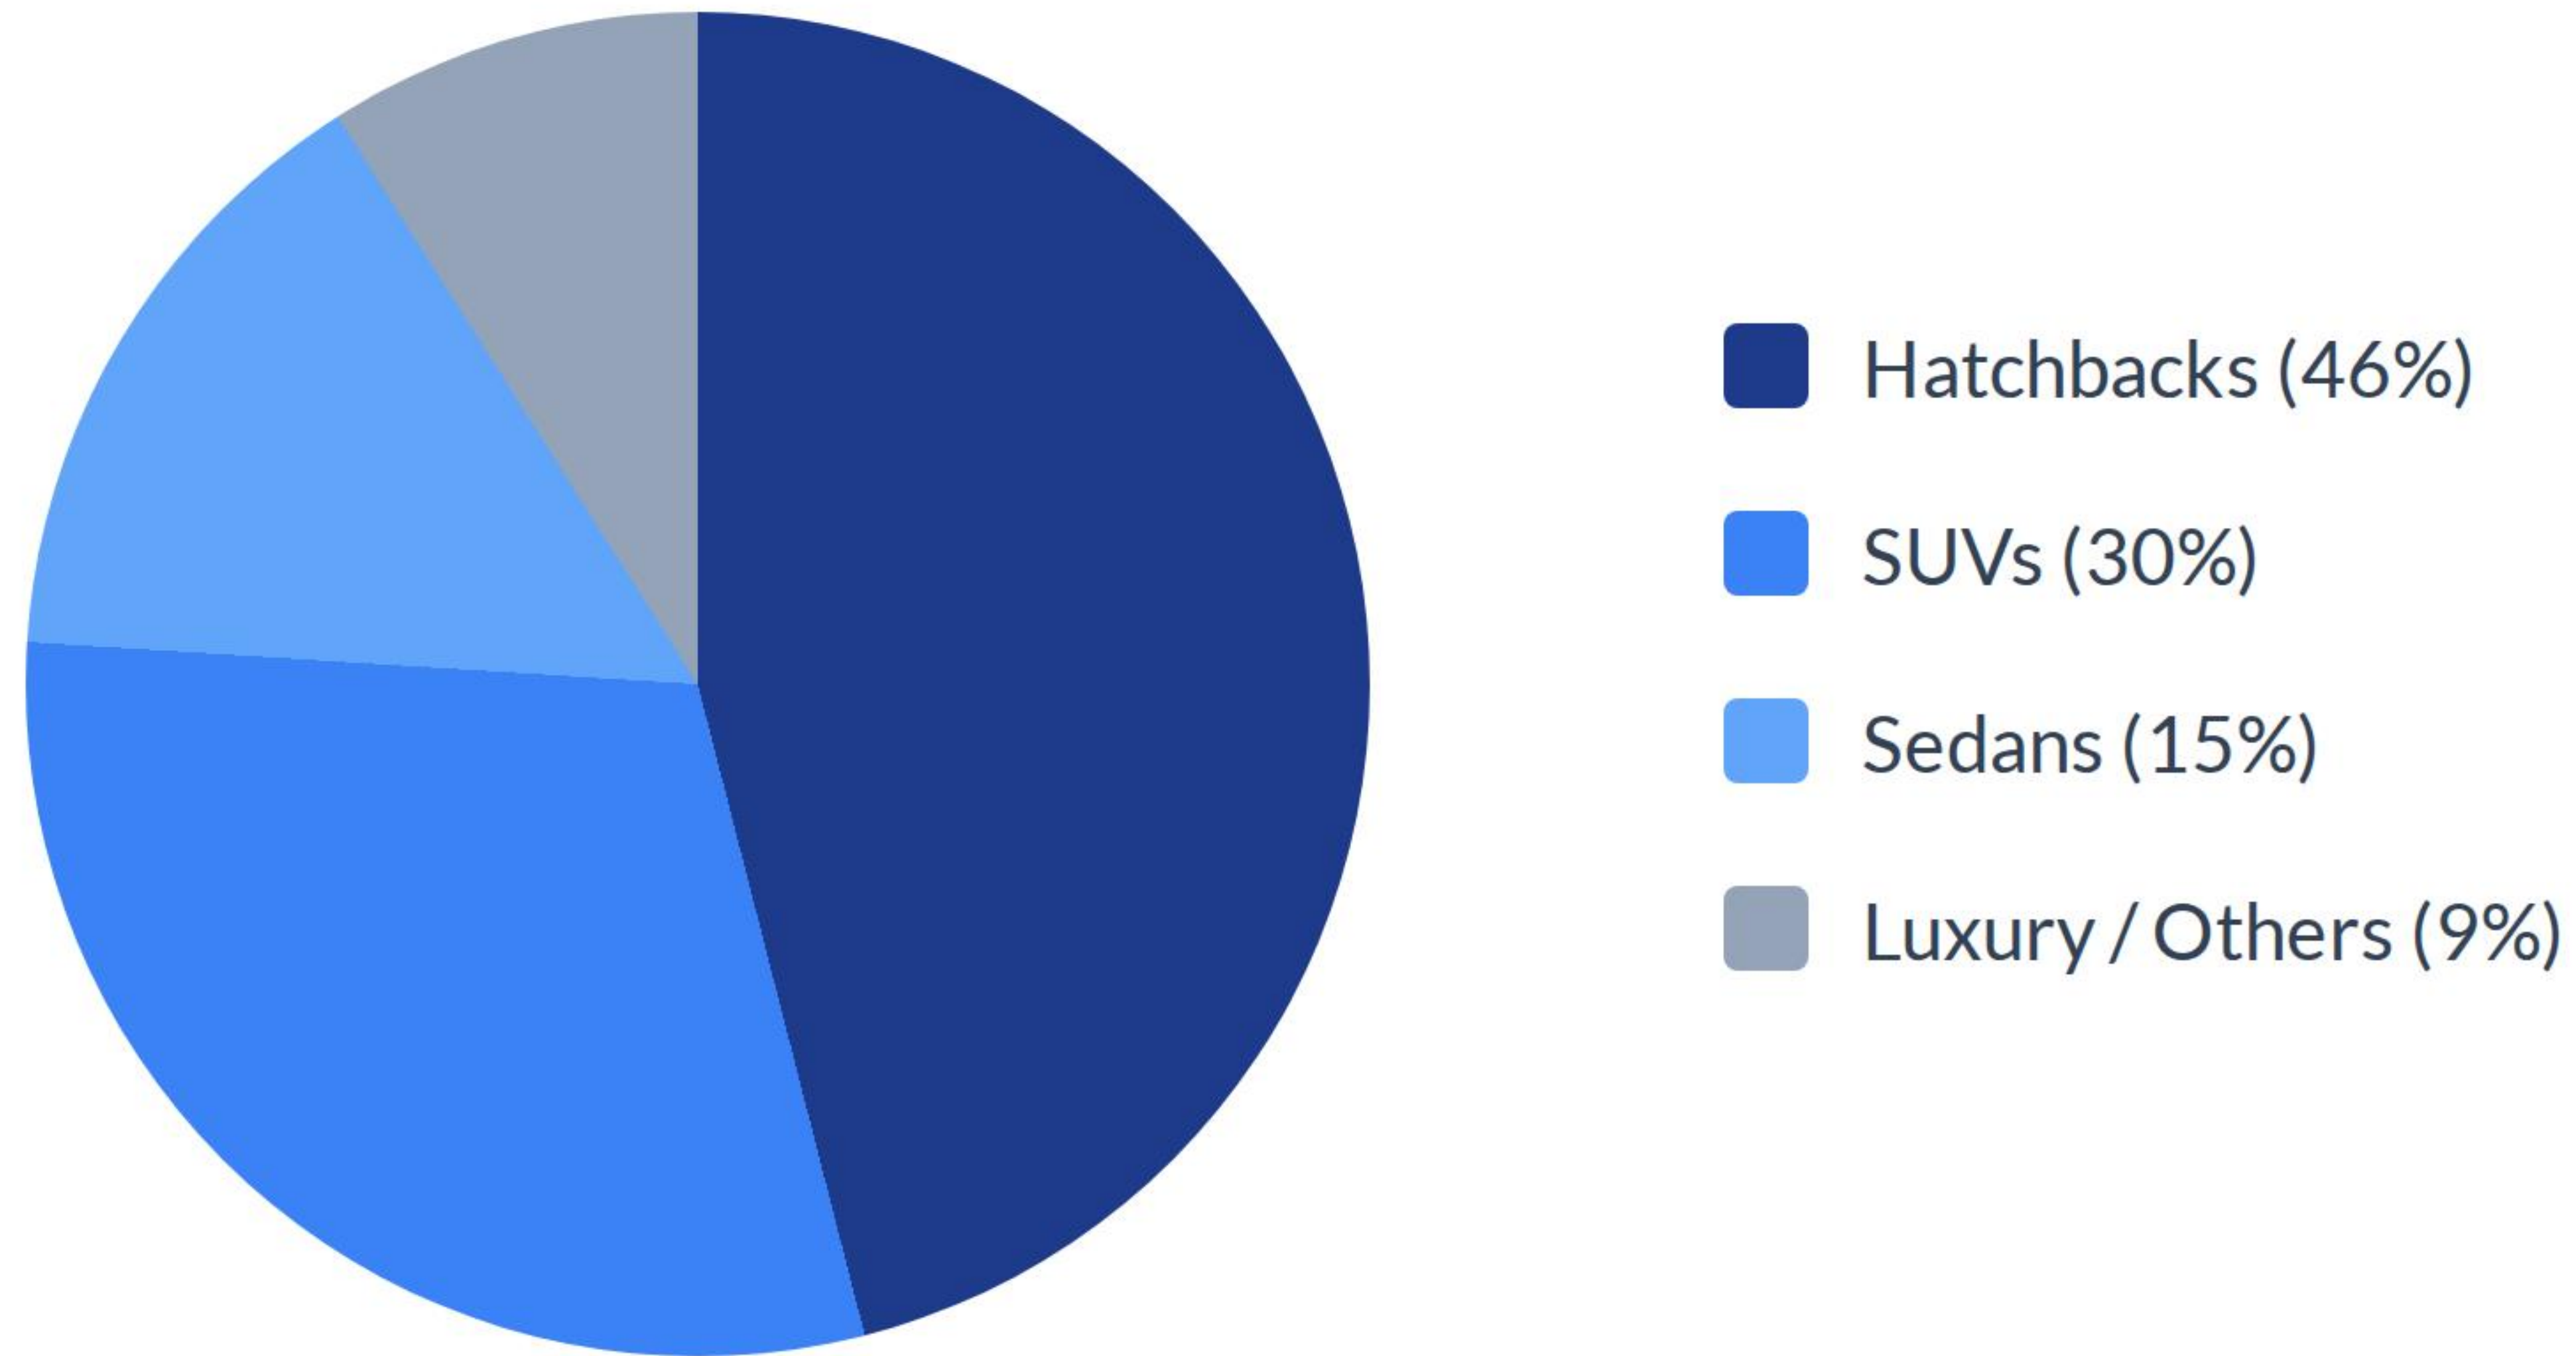

Research confirms "Max Power" as the single most significant predictor of resale value.

| The "Sweet Spot" Inventory Curve

Strategic Insight: Vehicles aged 3-7 years represent 47% of volume. Depreciation levels off here, protecting dealer margins.

| Segmentation & Demand Shift

SUVs are the fastest growing category (16.7% CAGR).

| Inventory Strategic Priority

Age Bracket	Priority	Target Segment	Turnover Action
< 3 Years	High	Premium Upgrade	Certified OEM Program
3 - 7 Years	Critical	Mass Market	High Velocity Stock
7 - 10 Years	Medium	Budget Buyers	Wholesale / Clearance
10+ Years	Low	Collectors / Scrappage	Selective Only

| The Path to \$68 Billion

15%

MARKET CAGR

50%

SUV SHARE

17%

ONLINE GROWTH

By leveraging **Max Power** and **Age** as valuation anchors, businesses can mitigate risk and capitalize on the rapid shift beyond Metro markets.
